Proprietary blend of alkylpolyoxethylene, glycol derivatives, humectant and formulation aids.....100%

All ingredients are approved for use under 40 CFR 180

- *Enlist One® Approved Adjuvant**
- *Enlist Duo® Approved Adjuvant**

OUTPOST™ NIS by PLATTE - Peak Crop Performance™ is a multi-function spray adjuvant for the enhancement of spreading of spray droplets and increased coverage of the intended target. OUTPOST™ NIS may be applied with insecticides, fungicides, herbicides, PGR's and nutrients at the label use rates or rates recommended on the pesticide label.

PRODUCT BENEFITS

- Enhances spread and coverage
- Increases uptake time
- Excellent plant safety
- Wide range of uses

*Approval pending. **Always check manufacturer's website for approved tank mix partners.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers may cause phytotoxicity to plant foliage. Prior to using OUTPOST™ NIS the applicator should have experience with the pesticide combination, including OUTPOST™ NIS, or should conduct a test to determine plant safety.

RECOMMENDED USE RATE

Use 0.5 - 4 pints of OUTPOST™ NIS per 100 gallons of spray solution.

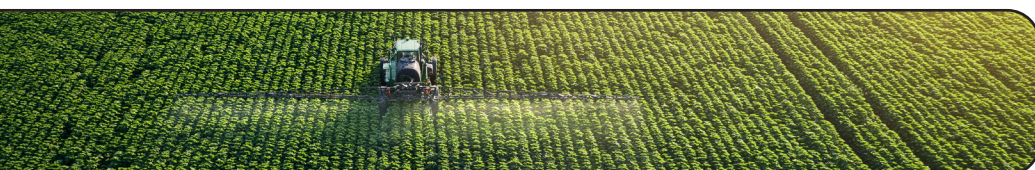

PRODUCT AVAILABILITY

- 2 x 2.5 gallon case
- 250 gallon tote

Weight: 9.96 lb/gal

Specific Gravity: 1.19
